## **RADPAC Supports Dr. Stephen Ferrara in Arizona 9<sup>th</sup> Congressional District Race**

**Washington, D.C.** (May 16, 2017) – Former U.S. Navy Chief Medical Officer, distinguished interventional radiologist and Gulf War veteran [Stephen Ferrara, MD](#), has announced his candidacy in the Arizona 9<sup>th</sup> Congressional District race.

“During my 25 years in the Navy, I deployed three times and travelled all over the world. Those experiences strengthened my conviction that America is the greatest, most compassionate country in the world. However, we still have our share of challenges to address. And, as a parent, doctor, and Veteran I won’t stand by and let these problems go unchecked when I know I can help solve them.”

“I’ll bring honesty, hard work, discipline, and mission focus to Washington. As a doctor, I’ll ensure patients come first when it comes to health care reform. As a Navy Captain, I’m an experienced leader who will ensure our military has the tools it needs to keep us safe. As a combat Veteran, I’ll ensure fellow Veterans are served, promises are kept, and no one is left behind.”

RADPAC fully supports Dr. Ferrara’s candidacy as expressed by RADPAC Chair Dr. Geraldine McGinty, “Dr. Ferrara has made a lifetime commitment to public service. His experience as both a veteran and a physician leader have prepared him to make a positive impact in Congress. We are so proud to have Steve as a member of our radiology community and will work hard to support his candidacy.”
